Money Talks

THE FIRST SEVEN A.N.A. Auctions were the hardest. This one, the eighth for A.K. seemed a lot easier to prepare. Could it be because Mike and Steve carried more than their share? Could be.

CONVENTION AUCTIONS NOT NEW to them. Ten years ago they assisted in the L.A. Convention Sale and in 1966 they were joint-directors of the Chicago Affair.

WITH SEVERAL SALES for the Numismatic Association of Southern California and the California State Numismatic Association under their belts, Mike and Steve are ready for anything.

IN FACT THE OCTOBER CALIFORNIA STATE SALE at the famed Biltmore Hotel in Los Angeles will be under their auspices.

GOLD DOMINATES THIS Catalogue, reflecting the demand for the yellow metal. Our recent success with the Alex Shuford Sale indicates keen interest in these coins.

SO MANY NEW COLLECTORS participating in sales that we have spelled out the details involved in bidding and selling at auction. Read the Terms of Sale and other Editorial material carefully.

OUR THANKS TO AL BABER and the many hard workers on his committees for their cooperation.

THANKS TO THE A.N.A. and its many members for the continued confidence.

OUR APPRECIATION TO the Numismatic Press for all the publicity they gave to this auction and convention.

WHEN THIS SHOW closes, AK will be winding up 39 years as an active professional numismatist. In September he starts his 40th year with as keen an interest as Steve and Mike evidence daily.

WE HOPE TO SEE YOU in San Diego. If you cannot attend, send your bids by mail (read our bidding explanation).

TERMS and CONDITIONS of SALE

The properties listed in this catalogue are offered and sold by A. Kosoff, Inc., and Numismatic Enterprises (cataloguers) as agents for the Consignors on the following terms and conditions.

1. Bidding shall be by Lot Number, no lots will be broken.
2. No BUY or UNLIMITED bids will be accepted. Please do not ask for exceptions.
3. NO commissions are charged for handling your mail bids. Shipping and insurance costs only will be added to your invoice.
4. Bidders unknown to the Cataloguers should supply suitable references or a deposit equal to 25% of their bids.
5. The Cataloguers reserve the right to withdraw any property at any time before the actual sale.
6. The Cataloguers reserve the right to reject a bid from any bidder. The highest bidder acknowledged shall be the purchaser. In the event of a dispute between bidders, the auctioneer shall have the sole discretion.
7. If the auctioneer determines that any opening bid is not commensurate with the value of the lot, he may reject the bid and withdraw the lot from the sale.
8.
 - a) The Cataloguers apply long experience and care in grading and authenticating all of the properties listed in this Catalogue. Errors do occur and the Cataloguers will gladly make satisfactory adjustments. However, as agents for the consignors, the Cataloguers are bound by agreements. Our settlements must be made in accordance with the terms of those agreements. Accordingly, ALL CLAIMS MUST BE INITIATED WITHIN 30 DAYS AFTER THE CLOSE OF THE SALE.
 - b) Claims involving grading or errors in the Catalogue should be made within 7 days of the receipt of the coins.
 - c) No claims, for whatever reason, can be considered after settlements have been made with consignors.
9. Lots will be on exhibition in the International Room of the El Cortez Convention Center beginning at 10 A.M. Tuesday, August 20th.
10. See Special notice on BIDDING.
11. Values following descriptions of coins are estimates only and do not represent reserves or guarantees of any kind. Selling prices may be higher or lower than the estimates.
12. An official list of Prices Realized will be published soon after the sale. You may order it by checking your BID SHEET. Two Dollars will be added to your invoice.

BIDDING

Cataloguers have long taken for granted that all collectors are familiar with the operation of an auction sale. Questions coming to us recently indicate that this is not so. Many collectors would like to know more about how a sale is conducted. The following is an attempt to answer these questions.

BIDDING BY MAIL

Obviously not all collectors who receive this catalogue can attend the sales in person. Yet they would like to participate in the bidding.

These collectors may do so by sending in a BID SHEET on which they indicate the lot number and the amount of their bid. Thus:

<u>LOT NO.</u>	<u>DESCRIPTION</u>	<u>BID</u>
1	1856 Cent	\$2170.00

The amount bid is the maximum which the bidder may be charged. If competition permits, the bidder may be charged less than the amount bid. If, for example, the second highest bid on lot number 1 is \$2000.00, then an advance of 5% will bring the bidding to \$2100.00, and this is the amount at which lot number 1 will be billed out to the bidder, despite his bid of \$2170.00.

You may bid generously with the assurance that you will buy the coin for less if it is at all possible.

At the same time, we frequently receive identical bids on certain lots. As each BID SHEET is received it is numbered and bids are entered in our Master BID BOOK by Bidder numbers. The only fair way is to give preference to the first of the identical bids.

BIDDERS sometimes want 1 coin of a certain type. There may be 3 or 4 coins of that type listed. You may indicate that you want only one of the 3 or 4 lots. Success on one lot automatically eliminates the others. Failure on a lot will transfer the bid to the next coin and so on.

BIDDERS frequently request a dollar-limit to their purchases. We can handle that situation for you as well.

A misconception exists concerning the opening bid at a public sale. We do not use the highest mail bid as an opener. The highest bid may be \$100.00 but if the next highest bid is only \$80.00 the opening bid will be \$85.00 or approximately 5% above the second highest bid.

Should there be no floor bidding the bidder submitting the \$100.00 bid will be awarded the lot at \$85.00. Should there be an advance by a floor bidder, we will represent the mail bidder until his \$100.00 bid is exceeded.

Mail Bids are kept secret. It would be unfair to Mail Bidders if we revealed such information. If it would be fair to reveal it to one collector it would have to be done for all. Please do not ask for exceptions to this rule.

MAIL BIDDERS may have the opportunity to examine lots prior to bidding. References should be supplied if you are not known to the Cataloguers. Shipping and insurance charges both ways are your only cost.

If you cannot attend you might also consider having a dealer or collector friend represent you at the auction to do your bidding. Dealers usually charge a very nominal fee for this service and will often examine the lots for you as well.

Finally, if there are still some questions you would like answered, send them to us. We will try to clarify them for you.

NOTES REGARDING GRADING

In this catalogue the reader may notice that in many instances there is a number accompanying the grading of the coin. This numbering system stems from a practice instituted by Dr. William H. Sheldon in his grading of early american cents. We feel that the scale for grading will give the collector a better impression of the condition of the coin described. The scale runs from 1 through 70, perfection being 70, 65 mint state and downward. The scale is as follows;

Uncirculated	MS	70	THROUGH	MS	60
About Uncirculated	AU	55	THROUGH	AU	50
Extremely Fine	F	45	THROUGH	F	40
About Extremely Fine	AXF	35			
Very Fine	VF	30	THROUGH	VF	20
Fine	F	15	THROUGH	F	12

Although this scale of grading will never do away with the individual differences in the viewing of the condition of a coin it is, we feel, another step toward better cataloging.

- 220— 10¢, 1796, K6, recut date, 6 touches bust. First star close to curl, a dot before L, RTY are closely spaced. Reverse three large and one small berry. E in UNITED is high, A in STATES is small, leaves touch ARI. Severe obverse and reverse die cracks. One of the loveliest of coins, sharp and most attractive. Has the appearance of a top grade Extremely Fine coin but for one fault. From a point starting at the lower half of E in LIBERTY to the hair just left of its highest point, there is a circular flaw. At the corresponding point on the reverse we have evidence of slight tooling. The reverse is even sharper than the obverse. Truly a most attractive coin. Worth about \$1000.00
- 221— 10¢, 1798/7, Kosoff-4, 16 reverse stars. Die crack from milling to first tail feather. Fine to Very Fine. \$375.00
- 222— 10¢, 1800, K-1, Top grade Very Fine. \$400.00
- 223— 10¢, 1800, Kosoff-1, as above, Very Good. \$150.00
- 224— 10¢, 1802, Very Fine. \$525.00

RARE CANADIAN FIVE CENTS SILVER

- 550— 1921, 5 cents Silver. Almost all of the coins struck were melted down when it was decided to strike the 1921 5 Cents piece in nickel. It is estimated that only very few of the silver coins survived. Uncirculated specimens have fetched up to \$3000.00. This sharp example has a bruise on the edge. The reverse is particularly sharp; the obverse shows signs of slight wear. Extremely Fine would be a conservative grading.
- 551— 25¢, 1889, Strong Very Good. \$27.50
- 552— 25¢, 1936, Lightly toned choice Uncirculated. Catalogues \$45.00

The remainder of this set of Large and Small Cents are Uncirculated and exceptionally nice. \$2000.00

The following lots should be viewed in order to appreciate that which space prevents listing for obvious reasons.

- 641— This choice lot is composed of 81 rare and unusual pieces. It contains rare British Model (Trial) pieces in all denominations and metals. It ranges from a very rare 1/16 model farthing to Choice and Rare Model Crowns by Haymes. All varieties of centers in the larger pieces are represented (i.e., Silver, Brass, Copper, etc.).

Also in this lot are early and unusual Coin Weights. One rare piece in this series is a 1/4 Moider Coin Weight of 13' 6 denomination which was Spanish in origin and allowed to circulate in England.

There is also a good representation of miniature model coinage of which many of the model pieces are as the 1/16 model farthing which measures only 7mm in diameter and would qualify as being the worlds smallest model piece.

Finally there is a nice representation of 19th century British Silver Provincial Tokens among which are: 1 shilling A.U. Leeds Yorkshire Workhouse (silver) token (1812) which is rare and which brought \$3.00 16 years ago in Seabys 1952 catalogue, and easily worth \$15.00 - \$20.00 on todays market. Number 69 K in this series is a Silver 30 pence Northumberland Durham Token of 1811 and is RRR. Condition of this piece is a conservative V.F.

Many other pieces of this quality are represented in this group of seldom offered pieces.

A most unusual lot and one which should easily realize: \$400.00

- 642— This next lot contains Medals and Medallions of the World. The majority of these are representations of medallic art of Germany and German States of the 19th century as nearly all are pre-1900. There are also a few store cards and counters and a few pieces from France, Poland and Rumania.

The metals represented are Silver, Brass, Copper, White metal and Bronze.

Some of these pieces contain suspension loops. The average condition of the lot is X.F.+ and many have original mint luster.

There are 118 pieces in this lot and well worth a bid of \$290.00

- 643— This next lot contains a nice selection of rare Jettons of England and France, Store cards of 18th Century England, Scotland Communion Tokens, and rare tokens of 19th century England and early medals.

In this group there are also a few nice early medals. The Jettons are of 1658, 1677, 1685, 1635, 1683, etc., in both Brass and Copper.

There is also a rare Davison and Hawksley British Provincial Trade Token of 1791 in Copper.

An Admiral Vernon Naval medal is also in this group.

Two unusual pieces here are the Glasgow Scotland Communion Token of 1725 which is in Klippe form and uniface and the other is an early 18th century Lead Klippe (uniface) and initialed XS.

There is also an 1812 British Copper Co. piece counter stamped with an E inverted at the 9 o'clock position.

There is also a 14th century long cross penny of England and half penny of 1670 as well as a scarce Scotland Lancashire Farthing of 1780.

The above 38 pieces are well worth a bid of \$200.00

- 644— This lot contains seven nice 19th century Commemorative Medals of the world.

A. First World Fair. London 1851. Obv: Prince Albert to left X.F.+

B. Death Medal of John of England. Bronze, Bust to left X.F.

C. British family medal of Wilhelm II, Queen on obverse and children on reverse. X.F.

D. Execution of Antonius Sacchini. High relief White Metal.

E. Prussia. Wilhelm I. Commemorating the 100th Anniversary of his Majesties Birth. X.F.

F. Portugal. Depicts National Hero and ruler Pedro IV (1867) A.U.

G. A death medal of William IV (British). Bust to right. Pierced at 12 o'clock.

All are nice specimens and all are White Metal except B. which is Bronze. \$50.00

- 645— This next lot is an outstanding collection of religious scapulets and medals. This collection was formed in the Montreal, Quebec, Canada area and thus present in this collection is many early 19th century rare pieces of surrounding Canadian area churches, many of which are represented on these scapulets.

Many of the pieces are represented and depicted in Dr. Joseph Leroux's monumental text "The Canadian Coin Cabinet" published in 1888. Many of the very rare pieces were even too elusive to be depicted here.

According to LeRoux's rarity scale much of the 19th century material would grade 3 on his scale (i.e., not easily obtained) and some number 6 (6 being very rare).

Many of the scapulets represent religious pieces executed during the period of the confederation (1867-1888). Some are from the chronologic period, and location as stated in LeRoux text: Canada East - Lower Canada (1760-1867).

Also contained in this collection is a number of rare lockets and badges from various countries of the Catholic world such as France and Italy. Some of the

pieces are unique in that they bear personal photographs.

Some of the scapulets are enclosed in glass of the era and some in mica; all of these pieces are, conservatively speaking, rare.

All shapes and sizes are represented; for example, scalloped, round, oval, starred, tridented, etc. The metals that are represented are Silver, Copper, Bronze, Pewter, Brass and Aluminum.

This collection represents many years of pains taking accumulation of religious material and is probably one of the outstanding collections of its type, that has ever been offered. For this reason, the owner has requested that it be kept intact.

Over 1000 pieces are represented. This is truly an outstanding opportunity to acquire a collection which has the caliber to be displayed in any museum.

A conservative bid in excess of \$3,000.00 is expected.

RARE INVERTED DATE

1019

- 1019 \$10.00, 1865-S over inverted 186. This is the first example of this rarity to come into our hands. The Guide Book lists it but does not indicate any value. What it will bring is up to you. We do anticipate spirited competition. Numismatists have suddenly come to the realization that the few overdates in the United States gold series are indeed rare. Bids at the \$3000.00 level are suggested.
